Daley-Meyer Family Tree

Data Collection Guidelines

Privacy – The Daley-Meyer Family Tree is a private tree maintained online at ancestry.com. Only members of this tree will be given access to view information in the tree. All facts contained in this family tree are maintained in a Family Tree Maker database. Certain facts collected are considered private, for research only, and are not published to the online tree.

Key Facts – The key facts collected in the Daley-Meyer Family tree are listed in the Daley-Meyer Family Tree Data Dictionary. In general, most facts involve a date, a location, and a comment regarding the fact. The general method in which these facts are recorded are specified in the data dictionary.

Profile Photos – When possible we have included photos of the individual in this family tree. User photos are uploaded in standard profile picture (pro pic) format of 200 x 200 pixels. Photos should have pixel density of 300DPI or greater. Head and top of shoulders should be included in the photo. JPG or PNG formats are preferred.

Family Photos & Other Photos – Family photos will be printed on the top of each family profile sheet. They will generally be attached to the head of household who has lineage in the tree. Family photo size should be 600x400 pixels, with pixel density of 300DPI or greater.

Other Image Documents – We include document copies which support the key facts including birth certificates, marriage licenses, death certificates, etc. In general, these are only only entered for deceased relatives and will only be entered for living relatives at their request.
